

**Three-phase
vacuum cleaners –
DS 2 series:**
High-performance
unit for continuous
operation

Three-phase vacuum cleaners – DS 2 series

Blower, designed and built by Ruwac

Three-phase motor

Residual dust filter for dust class H

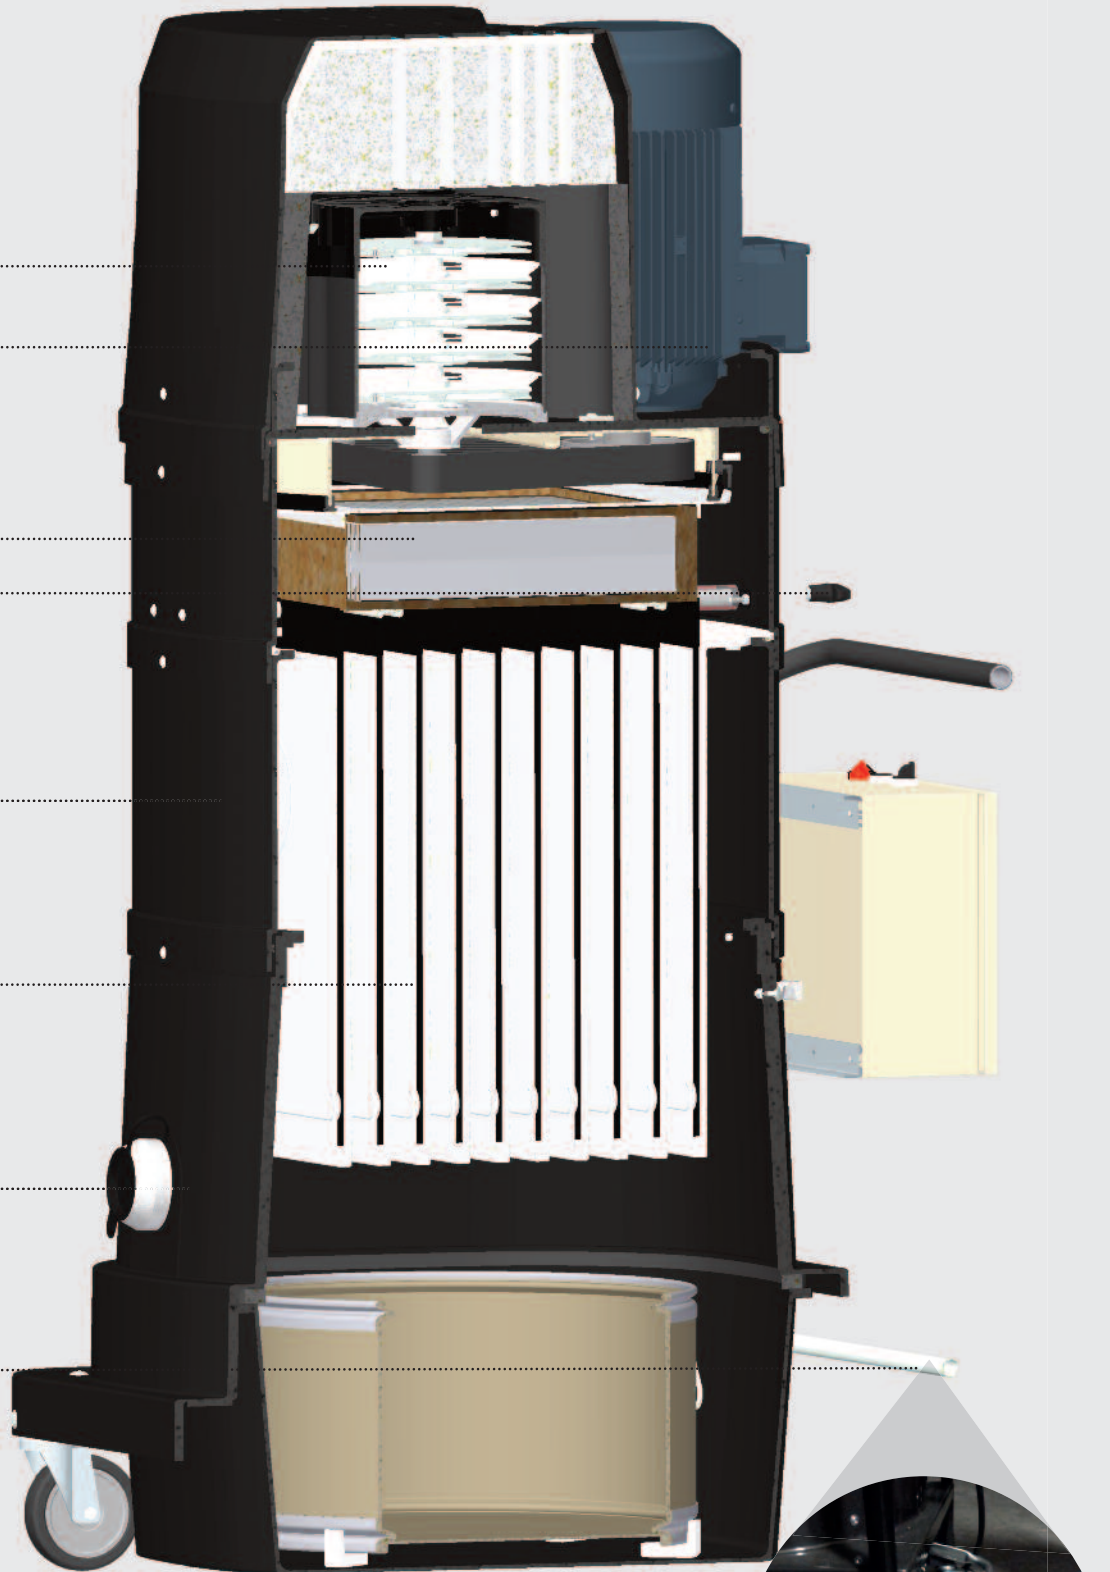

Manual deduster

GRP housing

Bag filter for dust class L/M

Suction connection (sealable)

Foot bar emptying mechanism

Easy to handle due
RUWAC foot bar
emptying mechanism

Concentrated power for every application

- Multiple variants thanks to modular system
 - GRP housing
 - Choice of disposal systems
- Versions for explosive dust and explosive gas areas
- Version for asbestos removal

DS 2720
dust-Ex in the vehicle
paint shop

DS 2520
gas-Ex in chemical
production

DS 2520 AH
(asbestos, dust class H)
for asbestos removal

DS 2410
dust-Ex for military
maintenance

DS 2520
with pre-separator in
steel production

DS 2420
dust-Ex in process
engineering

Technical data

	DS 2410	DS 2420	DS 2520	DS 2521	DS 2720	DS 2721
Housing	GRP	GRP	GRP	GRP	GRP	GRP
Motor power (kW)	4,0	4,0	6,0	6,0	7,5	7,5
Voltage (V)	400	400	400	400	400	400
Vacuum (mbar)	-190	-170	-230	-230	-210	-210
Air flow rate (m³/h) (measured with 3m hose)	410	540	650	650	820	820
Sound pressure level (dB(A)) (DIN EN ISO 3744)	72	74	75	67	77	69
Bag filter for dust class L, M (m²)	2,4/4,5	2,4/4,5	2,4/4,5	2,4/4,5	2,4/4,5	2,4/4,5
Residual dust filter for dust class H (m²)	3,2	4,8	4,8	4,8	4,8	4,8
Height (mm) (Bag filter 2.4 m² dust class L, M)	1.260	1.260	1.260	1.810	1.290	1.840
Height (mm) (Bag filter 4.5 m² dust class L, M)	1.575	1.575	1.575	2.125	1.605	2.155
Height (mm) (Bag filter 2.4 m² dust class H)	1.450	1.450	1.450	1.985	1.465	2.015
Height (mm) (Bag filter 4.5 m² dust class H)	1.750	1.750	1.750	2.300	1.780	2.330
Width (mm)	730	730	730	730	730	730
Length (mm)	920	920	920	920	920	920
Protection class IP	54/65	54/65	54/65	54/65	54/65	54/65
Capacity (litres)	90	90	90	90	90	90
Suction connection (mm)	70	70	70	70	100	100

Choice of disposal systems

Disposal container with cover

Liner bag
